

SHARE A SMILE PROGRAM

Neighborhood **Dental**

Get ready to make a positive difference in the community one new smile at a time. It's Neighborhood Dental's "Share A Smile" referral Program!

A smile is such a simple expression, yet it says so much! It can mean anything from a friendly hello to a show of loving support.

That's why at Neighborhood Dental we are dedicated to helping patients enjoy bright, healthy smiles. And now all of us can work together to help give the community something positive to smile about - our Share A Smile Program!

How does it work? It's simple!

Share A Smile is an easy way to give back to the community. Whenever you refer a new patient to the "Neighborhood", we will make a donation to a local charitable organization. Every effort adds up to helping make a difference in the lives of those right here in our community.

We hope you'll help and spread the word about our dedication and quality of dental care! In addition, by telling anyone and everyone about the experts at Neighborhood Dental, both YOU and the new patient will be rewarded a \$50 credit to use towards your next visit!

What do you say? Let's add a little sparkle to the community.
Together, we can all work towards growing a brighter neighborhood!
